

There's a great new way for photographers and media lovers to store, view and share digital photos, movies and music. The Epson P-2000 is compact and makes a big impact thanks to the crystal clear 3.8" Photo Fine colour display, 40GB hard drive and long battery life.

Mobile photo, movie and music player

The Epson P-2000 Multimedia Storage Viewer is a great new way to store, carry around and share your photos, music and movies. With its amazing 3.8" bright colour LCD and music playback features, this compact stylish device gives media lovers and photographers sound and vision without boundaries. Now you can have handheld digital movie screenings, slideshows or listen to your favourite music wherever you are!

There's room for serious media collections on the 40GB hard drive, while a long battery life ensures plenty of non-stop action. The Epson P-2000 is compatible and connectable with digital cameras, camcorders and computers. You can even screen on a TV and print directly on Epson USB DIRECT-PRINT compatible printers.
